

# ARTS MIDWEST WORLD FEST

## THE GREAT CANADA ZOO EXHIBIT PROPOSAL

You are proposing an idea for a major exhibit at the new Great Canada Zoo. You must convince the zoo's directors that you have a good plan for your exhibit and that it will help the species rebound from its threatened or endangered status.

At-risk Animal:

Canadian Region and Ecozone:

Answer as many of the following questions as possible, after doing some research about your animal and its natural habitat.

### INTRODUCE YOUR ANIMAL

What is its scientific name?

How big is it?

What color(s) is it?

Where in Canada does it live?

(Province(s), mountain ranges, forests, rivers, lakes, etc. Give specific names.)

What sounds does it make?

What are the animal's babies called?

How many babies are born at a time?

How long does the animal live?

What is a group of these animals called?

Does it have any natural defenses?

Does it have any camouflage to help it hide?

If the animal migrates, where does it go to and from? When?

Do humans hunt this animal or interact with it in any other way?

What threats does this animal face in the wild today?
